Accessing Your CyberArk Results and Profile

Now available through the Palo Alto Networks program at Pearson

Your CyberArk profile and results have been moved to the Palo Alto Networks client at Pearson. Follow the steps below to access them.

Step 1 Create an account

From the Palo Alto Networks registration page, select **Create an account**.

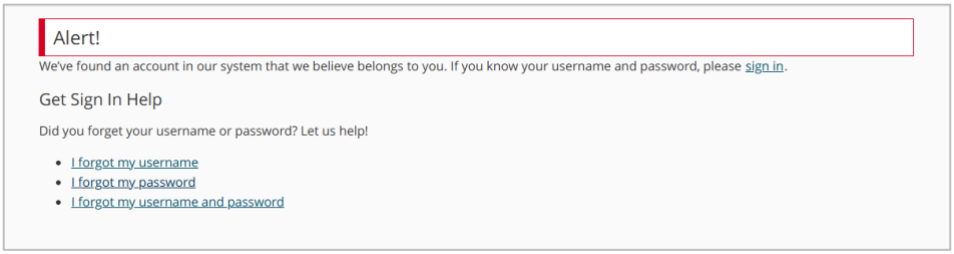

Palo Alto Networks registration page

Step 2 Enter your details

After agreeing to the Pearson Privacy Policy, enter the **same name and email address** you used for your CyberArk profile.

Step 3 Confirm your existing record

The system should locate your existing CyberArk results and profile, as shown below.

Example of the confirmation message

Step 4 Set up your web access account

Select **I forgot my username and password** to create a new Palo Alto Networks web access account.
